

Postdoctoral positions at the Rényi Institute

Two one-year postdoctoral research fellowships in mathematics have opened for application at the Alfréd Rényi Institute of Mathematics (Budapest), starting in 2022 September, in the field of

automorphic forms and related areas,

preferably with a connection to analytic or p -adic number theory. The positions are within the special semester program [Automorphic forms](#) of the brand new [Erdős Center](#). There are no teaching duties, in particular, candidates are not required to speak Hungarian. The salary will be 2,000 EUR per month¹, supplemented by a travel grant of 1,500 EUR for the year.

Applications will be reviewed beginning

2021 January 15,

if not filled, thereafter, until the search is closed.

Applications are expected via e-mail to `automorphic.forms.22@renyi.hu` with subject “postdoc application”.

The application should contain:

- a CV,
- a list of publications,
- a short (2 or 3 pages) summary of past research,
- a short (2 or 3 pages) research statement,
- two letters of recommendation sent to `automorphic.forms.22@renyi.hu` directly.

¹In Hungary, net salary is about 2/3 of the gross one, unless tax discounts (e.g. for children) apply. Visit <https://www.numbeo.com/cost-of-living/in/Budapest>.
